

# AUTUMN 1 2025

In maths we have been learning all about Place Value this half term. We have grouped amounts, practised counting objects and compared amounts.

Hedgehogs have been using the story The Three Little Pigs to inspire their writing this half term. We practised giving our partners instructions then we wrote a set of instructions to help us catch the wolf!

In Art we have been mark making this half term.

We explored the work of Heather Hansen and her use of charcoal as well as looking at Cave Art. We then used charcoal, pencil and chalk to create our own art.

This half term's computing was all about moving a robot. We learned how to use algorithms to programme the Blue Bots to follow a map to a specific destination.

In geography, this half term our topic has been 'Putting Oldfleet on the map!'

We looked at our school using Digimaps, Google Maps and Google Earth. We went on walks around the school grounds and then created our own maps.

# YEAR 1 HEDGEHOGS
