

SPRING 2 2025

In maths this half-term has focussed on fractions, decimals and percentages. We have also looked at statistics.

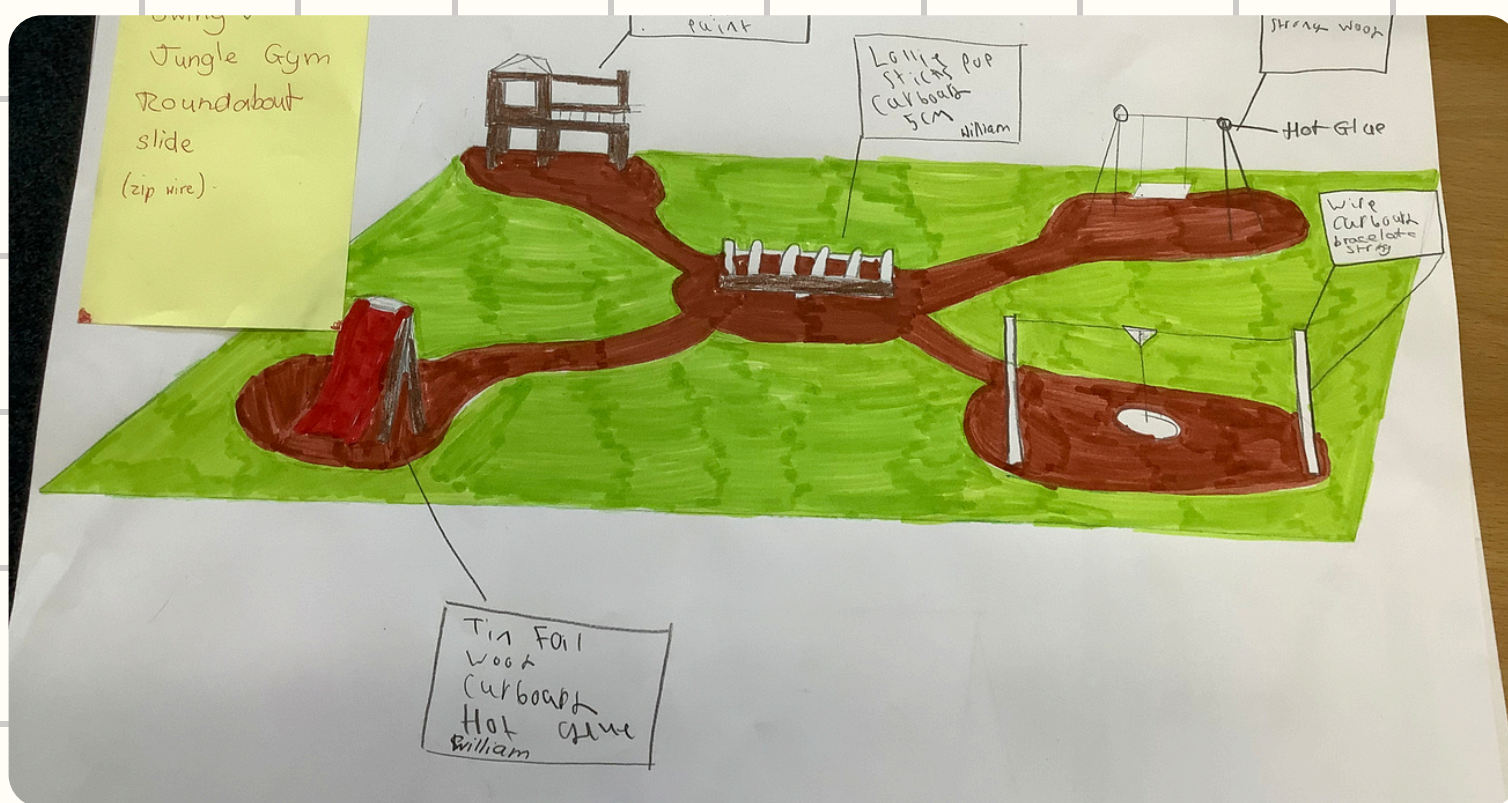

Our writing this half term has been based around The Lost Thing. We have written an explanation text, a balanced argument and a sequel.

In reading we have read a variety of fiction and non-fiction texts, discussing vocabulary and making inferences using evidence to justify our answers.

In science, we have explored how light travels and have investigated how shadows shadows are made and change throughout the day.

In Design and Technology, children have explored existing playground equipment and designed their own play-parks before creating their designs.

YEAR 6 TAWNY OWLS
