

AUTUMN 1 2025

Black History week
We enjoyed learning all about Harriet Tubman.
What an inspiring woman she was! Also, a huge thank you to all the parents who join for the afternoon to create our Freedom quilt.

In DT, this half term we have created our own mini greenhouses. We looked at different greenhouse styles, designed our own and then made them. We improved our cutting skills with saws.

In history, this half term we have discovered all about Prehistoric Britain and what life was like. We discussed the Stone Age, Bronze Age and Iron Age. We also go to create our own classroom caves and make cave art.

Science
In Science, we have looked at Plants, learning their functions, what they need for life and growth and how they transport water.

We have settled really well into Year 3 and can't wait to see what else the year holds!

YEAR 3 SQUIRRELS
