

# SUMMER 1 2025

In maths the children have worked hard to apply strategies to help them solve multiplication questions.

In English the children had to follow instructions on how to make corn flakes. They then had to write instructions to show their understanding..

The Stoats had to design and make a wooden photo frame in DT.

In Geography the Stoats learned all about Freetown, a city in Sierra Leone in Africa .

HKR players visited the Stoats and we asked them some questions.

## YEAR 2 STOATS
