

SPRING 2 2025

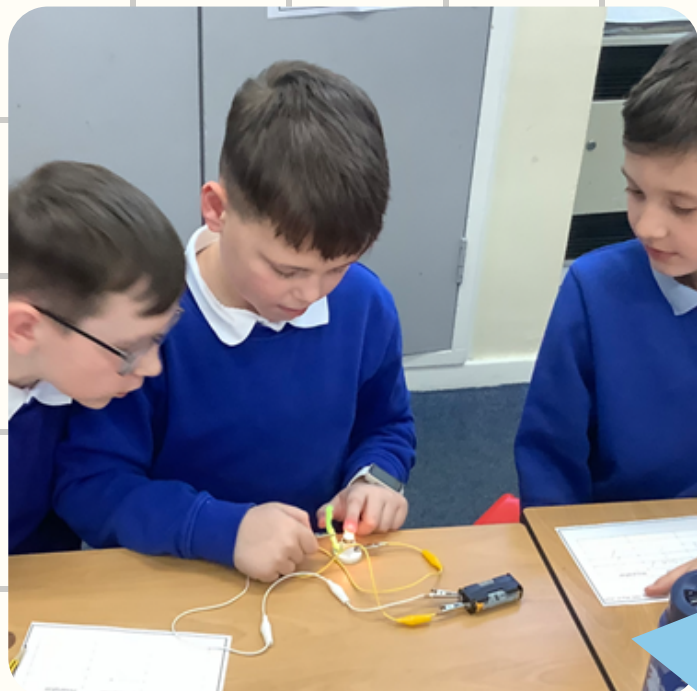

In maths we have been exploring coordinates by plotting points on a grid. Learning how to read and write coordinates using (x, y) axis. We enjoyed activities such as finding hidden treasure on coordinate grids.

We have been looking at the book *The Tin Forest*. From this we have been writing different setting descriptions focusing on the 5 senses. We also wrote a persuasive letter!

We have been working really hard on our vocabulary skills. We have been practicing explaining the meaning of words that are in our book. We have lots of conversations about words we are not sure on and help each other to learn.

In Science we have been investigating insulators and conductors. We tested lots of materials like coins, cotton wool, piping and screws. The children were fascinated by the conducting materials lighting up the bulb!

We have been working really on our Spring performance 'You are Special'. We practiced the songs in our classrooms and during rehearsals in the hall. This has been very exciting and we have learnt lots of new skills. Working together is fun!

YEAR 4 NIGHTINGALES
