

AUTUMN 1 2025

In maths we have been exploring numbers up to 10,000, understanding the place value of each digit. We worked hard to recognise, write and order the numbers on a number line and to make comparisons and estimates.

In writing we have been using 'The Barnabus Project' to explore fronted adverbials and conjunctions, while also working hard to improve the presentation of our work.

We have been reading, 'The Nothing to See Here Hotel.' Frankie Banister tells us about all different types of creatures. Then, a Goblin Prince comes to stay at the hotel. The children predicted what would happen during his stay and practiced how to retrieve information from a text.

In science, we have been exploring the unit 'Animals Including Humans'. Our experiments were really fun and helped us to understand organs in the human body, how the digestive system works and how to keep our teeth healthy.

Badgers have been enjoying getting to know all the skills and tactics that are used in Rugby. We have had the rugby coach Jack from HKR, helping the children increase their performance skills. Even Miss Rowe joined in with tag Rugby...she wasn't very fast!

YEAR 5 BADGERS
