

AUTUMN 1 2025

We have been using tens frames to help us add and subtract through ten. These help us understand teen numbers.

We are having daily handwriting lessons to help us to improve our letter formation. We are trying hard to make sure our letters start in the right place.

We have worked well in talk partners during RWI lessons this term. We listen to our partner and support them if they get stuck on a word by using 'Fred talk'.

In our Geography lesson, we went on a local area walk to identify physical and human features.

We are trying our best every day to get our names onto the class recognition board to earn some extra play time.

We get on the recognition board by showing we are 'ready, respectful and safe'.

YEAR 2 OTTERS
