

AUTUMN 2 2024

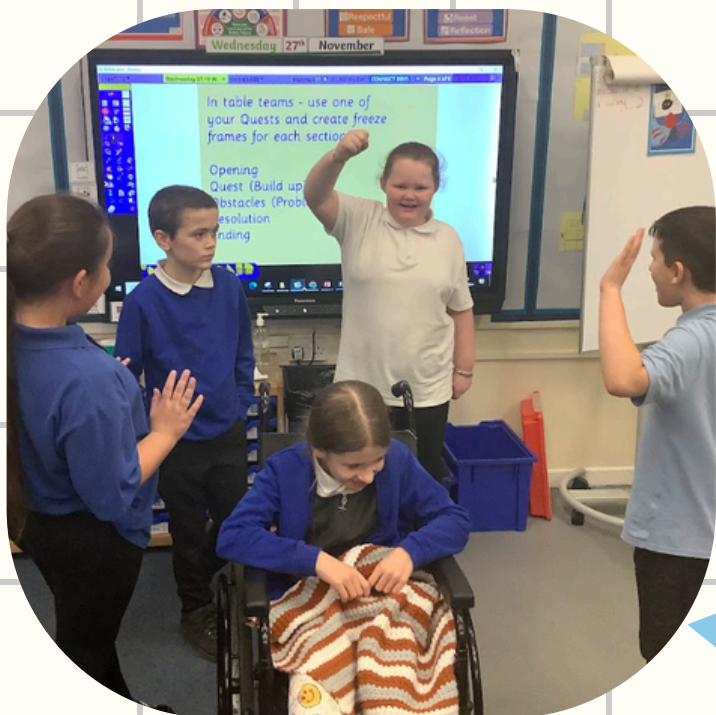

In maths, we have used Base Ten to help support us and help us understand dividing with exchange.

During our DT lessons, we have explored freestanding structures and applied our own ideas to create a marble run.

In our computing lessons, we have been exploring a variety of filming techniques which we have used to make a short film.

In English, we have explored drama techniques, such as freeze framing, role play and hot seating to support us to develop different characters.

Christmas jumper day around the tree. We have had a day of Christmas singing and Christmas dinner.
