

SUMMER 2 2025

At the beginning of the half term we found a crashed spaceship on our playground! We had lots of questions for Beegu, our main story character.

This half term we have been focusing on reading speedily! We also all took part in the phonics screening check and tried hard to read words using Special Friends, Fred Talk, Read the word.

In Science we have explored seasonal changes. We have looked closely at how plants and trees change over time.

We have also discussed how weather and day length varies.

In History we have used sources to find out information about Seaside holidays in the past and present. We then sorted pictures to show what happened then and now.

This half term we have had the opportunity to work with Hull KR, which we have found very enjoyable.

We were lucky enough to get to see the Challenge Cup Trophy!

HEDGEHOGS CLASS
