

SUMMER 2 2025

We have loved all of our learning about Charlie and the Chocolate Factory this half term. We kicked it off by creating our own chocolate.

We have developed our knowledge of multiplication and started to use the column multiplication method with confidence.

We mummified tomatoes.

We have loved learning all about Ancient Egypt. We especially liked learning all about mummification.

DT
We developed our knowledge of Pulleys and created mechanisms.

We had a brilliant afternoon mummifying tomatoes. We scooped out the tomatoes brain and filled it with salt... just like the Ancient Egyptians!

YEAR 3 SQUIRRELS
